

BOYS AND GENDER-BASED VIOLENCE

Children advocating, mobilizing, raising awareness,
informing and communicating.

Asia and the Pacific: Nepal

"We have engaged in various panel discussions organized by various institutions to discuss how children are in danger and why we should not forget that boys are in danger too. We also organized weMEN club meeting where all the club leaders gathered and discuss how gendered mindset is affecting our lives and what we should be doing. We are also going to organize National Conference on gender-based violence and engaging men and boys, where we will be discussing on violence against boys, gender roles, mental health, SRHR."

Hami DajuVai (Nepali Brothers)
