

ADOLESCENTS INFLUENCING POLITICAL CAMPAIGNS TO FIGHT THE CLIMATE CRISIS

Category: Children advocating, mobilizing, raising awareness, informing and communicating

Europe, North America, and Others: United States

The US Youth Climate Strike is a movement co-founded by adolescents. Inspired by the actions of Greta Thunberg, they created this movement to educate youth and raise awareness regarding the climate crisis by organizing and participating in strikes. They have created a political force by mobilizing young voters and were able to influence the programs of political candidates.
