

72,000 HOURS OF COMMUNITY SERVICE

Children advocating, mobilizing, raising awareness,
informing and communicating.

Sub-Saharan Africa: Ethiopia

Scouts put together a national Covid-19 task force. The Scouts contributed 72,000 hours of community service, raised awareness about COVID-19 prevention, offered tuition services for school-going children who had to stay home due to closure of schools as a result of the pandemic, donated food to the vulnerable community members and contributed to enforcing the government's stay home orders.
