

CHILDREN AND ADULTS WORKING TOGETHER

Children advocating, mobilizing, raising awareness,
informing and communicating.

Sub-Saharan Africa: South Sudan

Voice for Change exists to create space for dialogue, strengthen capacities of communities and institutions to eradicate absolute poverty and reduce all forms of injustice and violence. Children and adults are involved as volunteers in the dissemination of COVID 19 and awareness creation to minimize the spread of the pandemic in the Country.

Due to the lockdown, which has made the children to spent more time within their families, there has been an increase in the prevalence of GBV, since the parents feel very irritated even with small mistake that a child commits, it leads to Violence. However, VFC was able to create awareness on how to handle some of the challenges without resorting to violence.

Voice for Change (VFC)
