

# CHILD PEER EDUCATORS RAISING AWARENESS AROUND CHILDREN'S RIGHTS

Children building capacities and researching

Asia and the Pacific: Cambodia

In order to create a healthy environment for children amid COVID-19 threat, child and youth participation, among others, is instrumental and play important role in this process. Therefore, The child peer educators conducted home-based awareness raising on Ecological Child Rights (ECR) and integrated educational messages on COVID-19. The purpose to conduct this awareness raising are to increase the understanding of community members on ecological child rights and contribute to the creation of an enabling environment for the realization of this right.
