

CHILDREN COMING UP WITH IDEAS FOR CHANGE

Children building capacities and researching

Latin America and the Caribbean: Ecuador

Organization working to empower children by encouraging them to develop ideas for action, and recommendations for leaders and communities of faith. They've done posters with key messages for leaders, activity brochures for families and teachers, key messages for families and teachers to support children and adolescents, collected voices of children and religious leaders. In times of confinement, violence against children and adolescents, in all its forms, has grown a lot; they are locked up with their violent adults, most of whom are their closest relatives. When we work with children they feel heard and taken into account. The children are leading their actions. Children feel empowered, and valuable information has been collected.
