

CHILDREN PROVIDING ONLINE SUPPORT TO THEIR PEERS

Children engaging and supporting their peers,
including reaching the most vulnerable

Europe and Others: Albania

Children and youth from Child Government in school and Save the Children's Child led Group are providing online support and messages to their peers to cope with the limitations and situation created from the lockdown. Psychological support offered to children, youth and their families through 'online' sessions with the engagement of qualified staff of psychologists who have provided their support in dealing with the aftermath of the 26 November earthquake. Engaging children and young girls and boys, members of the Voice 16+ groups, to raise their voice in this situation, and to provide online support to their peers.
