

# CHILD-LED PEER GROUPS TO EDUCATE COMMUNITIES ON CHILDREN'S RIGHTS AND SPEAK UP

Children Engaging And Supporting Their Peers,  
Including Reaching The Most Vulnerable

Sub-Saharan Africa: Uganda

'Save Street Children Uganda' is an organization that envisions a world where no children live on the streets. Through their street and community outreach, they reach out to children in underserved communities with high rates of child labor, child abuse, child neglect, and exploitation. Within this organization, children are leading peer groups to educate their communities about children's rights. Boys and girls within these groups vote for a representative to speak at the 'Annual Child Rights Day,' and address world leaders transmitting their key messages.
