

WORKING CHILDREN MEET WITH LOCAL AUTHORITIES TO ADVOCATE FOR THEIR RIGHTS

Children engaging with decision making

Latin America and the Caribbean: Paraguay

In Paraguay, Child Advisory Committee (CAC) members of Time to Talk! - a global campaign supporting working children to take forward child-led advocacy for improving their working conditions and eradicating all forms of child labour - held an interactive dialogue with local authorities to advocate for the rights of working children.

More specifically, they met with representatives from the National System of Protection and Promotion of the Rights of Children and Adolescents in the Paraná region. Children put forward their asks and recommendations, and authorities committed to suggesting concrete solutions for the problems presented, including the development of a Community Centre for local children to access education, and recreations and cultural activities.
