Children innovating, creating and expressing

Latin America and the Caribbean: Peru

In Peru, Child Advisory Committee (CAC) members of Time to Talk! - a global campaign supporting working children to take forward child-led advocacy for improving their working conditions and eradicating all forms of child labour - put together a dramatic performance about child violence to sensitize on violence against children. Following, they held an interactive dialogue with the audience - parents and teachers - on the importance of addressing violence and creating change for children's rights to be respected. The intervention ended with commitments from participants on specific actions they would take to help end violence against children.
